

## REGION 8

We just had an exciting event here in Klamath County. The two districts, Klamath County School and Klamath City Schools combined together to have a Klamath Falls School Wide Art Fair. In previous years, the two districts held separate art fairs. It was held from April 19th to April 23rd. It consisted of 4 high school, 4 junior high's and approximately 20 elementary schools. There was so much artwork to look at and it was well attended by the community! Because of the success that we experienced, future art fairs will be combined.

Currently, us high school teachers are winding down with mentoring our Seniors with their senior projects. I personally have 2 more senior gallery shows to mentor before the end of the year. It's exciting and rewarding helping future artist learn the trade and hold a show of their own artwork.

To end the school year my students plan on painting our ceiling tiles along with making shirts with art slogans on the front to celebrate an artful year.
